

How to log in to Jaktwebben for the first time

Note! Everybody that are about to log in to Jaktwebben for the first time need their activation code. Reach out to the leader for your hunting team to get your activation code. When you have your code, follow the steps below to log in.

1. On the starting page, click on "Logga in med E-post" (log in with email).
2. On the next page, click on "Skapa ett konto här" (click here to create an account).

The screenshot shows a login form titled "Logga in". It contains two input fields: "Användarnamn (epost)" and "Lösenord". Below the password field is a link "Glöm ditt lösenord?". A green "Logga in" button is positioned below the fields. Underneath, the text "Har du inget konto?" is followed by a link "Skapa ett konto här." which is highlighted in yellow.

3. You will be prompted to give your email and activation code (see image below)
4. Enter your email (it has to be the same email to which you received the mail with the link to Jaktwebben) and click on "Skicka verifieringskod" (send verification code). Within a minute you will receive an email with a verification code. Enter that code in the field that showed up for verification code and click on "verifiera" (verify).
5. Enter the activation code you got from your team leader. Do not enter a "personnummer", that is for Swedish users only.
6. Click on "gå vidare" (next).
7. You will now see a page where you need to enter some information, including choosing a password for your account. Fill this in and submit. You will now be logged in. The next time you log in, you can enter your email and password as seen in the image above.

The screenshot shows a verification page with the text: "Vänligen verifiera din e-post och fyll sedan i din aktiveringskod samt personnummer om du är svensk jägare". It features three input fields: "E-postadress", "Aktiveringskod", and "Personnummer (Svensk jägare)". A green "Skicka verifieringskod" button is located below the email field. At the bottom, there are two green buttons: "Gå vidare" and "Avbryt".
